Message from Board of Directors

Dear our Valued Customer and Partners,

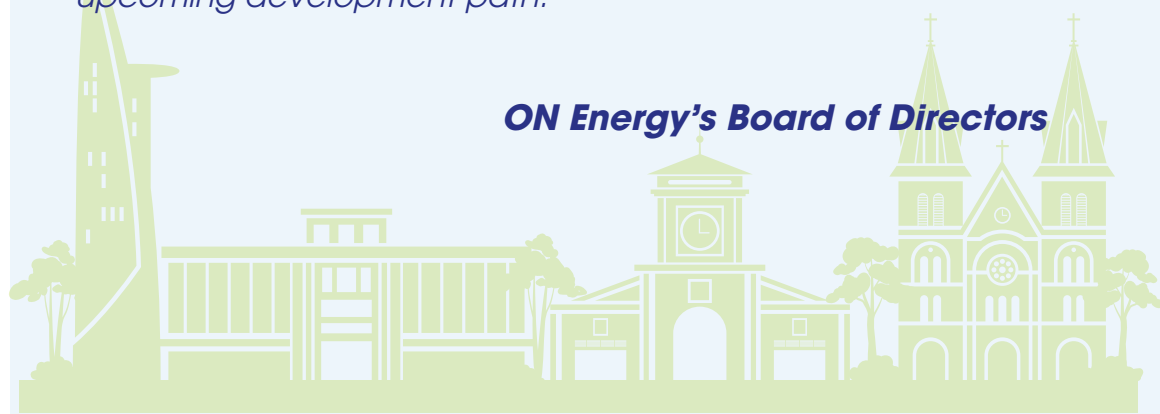

First and foremost, Board of Directors of ON Energy Green Energy Joint Stock company (ON Energy for short) would like to extend our wishes of health, luck and success to you.

In the context of today economic development and integration, the demand of electricity is on a surge and it is more than necessary to ensure adequate power for usage and production. Renewable energy resources in general and solar energy in particular emerge as a trend, a green and unlimited energy resource that is exploited for production in many countries. Grasping the tendencies, ON Energy is one of EPC General Contractors pioneering in installation of rooftop solar power systems. With 6 years of experiences in renewable energy sector and as one of leading company in consulting and providing equipments, lump sum installation for solar power exploitation, we are confident to have the safest and most effective works at highest quality for our Valued partners and customers.

Looking back at our journey, we appreciate both individual and team contribution to our company, Valued customers and partners, etc. who always accompany and support ON Energy to accomplish such achievements. Employee's dedication, enthusiasm and effort shown through many projects has helped the company reach higher position and makes ON Energy a prestigious and high-quality engineer and construction company which always create projects that improve the quality of life and brings prosperity, happiness to employees, customers while sharing responsibilities for community and society.

With spirit of cooperation and development, ON Energy is looking forward to receive your trust, cooperation and support in the upcoming development path.

ON Energy's Board of Directors

ONENERGY™
-Renewable Solution-

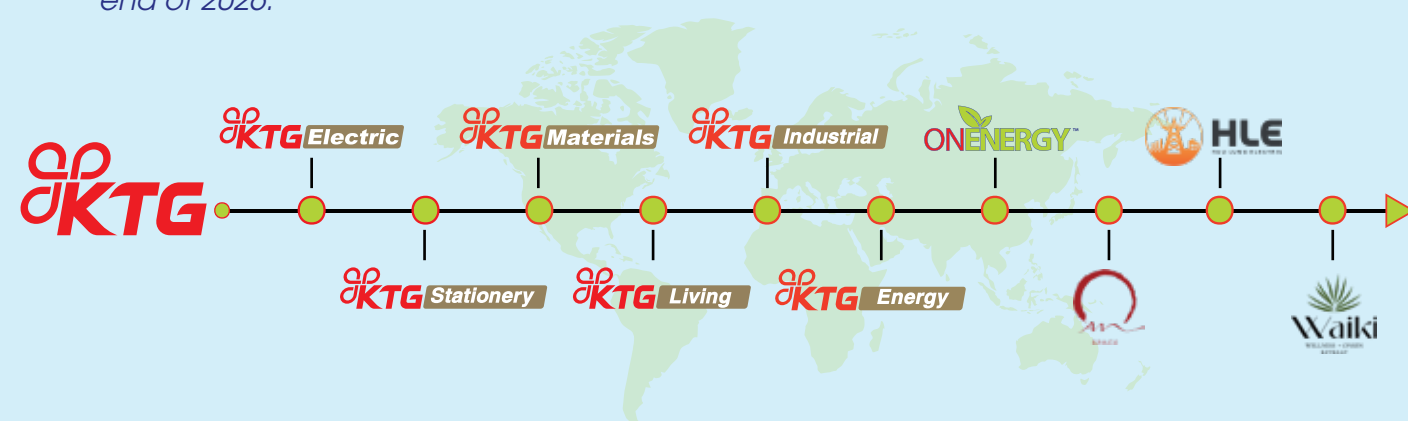

ON Energy

Overview

On Energy Joint Stock Company was established in 2014 as a renewable energy segment of KTG group. Through 12 years of establishment and development, with persistent enthusiasm and effort to bring safe and high-quality works to our customers, On Energy has become one of leading company in renewable power sector in Vietnam.

With more than 10 years of experience in the renewable energy sector, together with a dedicated, enthusiastic, and professional technical team as well as modern equipment systems, ON Energy has successfully deployed over 50MWp of rooftop solar power projects and is expected to reach 100MWp by 2030.

Renewable energy projects (solar power, wind power, etc.) are expected to be completed by the end of 2026.

Vision

We aim to become a General Contractor of Renewable Energy that can ensure the Safety – Reputation – Quality and remain the top choice of customers in Viet Nam and International market.

Mission

Protect the environment – Enhance people lives

We bring a prosperity for our customer and employees, joining hands in protecting the environment for community and society.

Core values

Tận tâm

Listen to customers and show understanding. We always consider our customers as main focus, offer services and consultancy enthusiastically and thoughtfully and show a respectful, friendly and happy attitude toward our customers, etc.

Đồng đội

Show empathy. We treat each other with care, sharing, respect and love. We support our colleagues with the work and aim to accomplish mutual goals.

Thích ứng

Our staffs are able to work in harmony with people who have different personalities in different situations and adapt to new changes.

Uy tín

Keep commitment. We take responsibilities and do not blame others. We are honest and do not seek self-interest.

Trí tuệ

Lifelong learning spirit and enhance work efficiency. We are always on a quest to better ourselves in terms of knowledge, skills, behavior, attitude and personality.

Khát vọng

We always live with ideals and goals to improve people's quality of life. We act to our passion and accept challenges.

Solution

Equipment

Solar panel

On Energy provides panels from the world's leading solar panel manufacturers such as: Jinko, Solar, Longi Solar, JA, Canadian Solar...

Inverter

Besides, On Energy is also a reputable partner of top inverter manufacturers such as: SMA, Huawei, Solaredge, Goodwe, Sungrow...

Electrical Cable

On Energy is a big partner of electrical cable suppliers for solar power systems such as JJ-Lapp, Cadivi, Helukabel...

Product

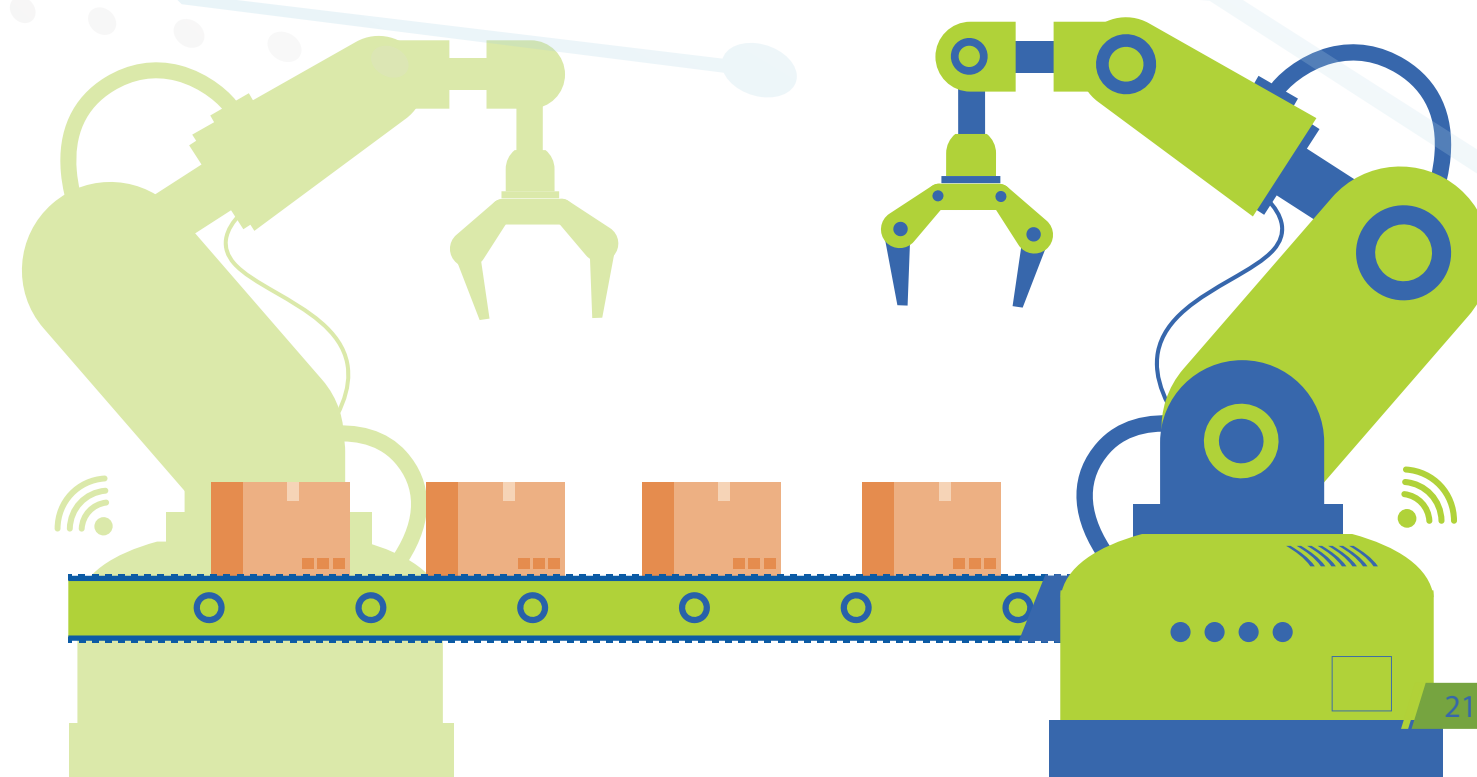

Energy storage

ON Energy distributes and supplies high-quality energy storage batteries from trusted brands such as VinFast, Stavian, Deye, and Huawei...

BESS VinFast

Manufacturing factory

To ensure full control over production capabilities, ON Energy has established an industrial manufacturing plant at Tam Phước Industrial Park (Dong Nai City)

The factory is equipped with modern production lines and advanced machinery specializing in precision mechanical fabrication, powder coating, and the manufacturing of solar energy accessories and equipment such as safety walkways, technical access paths, cable trays, electrical cabinets, industrial equipment, and more.

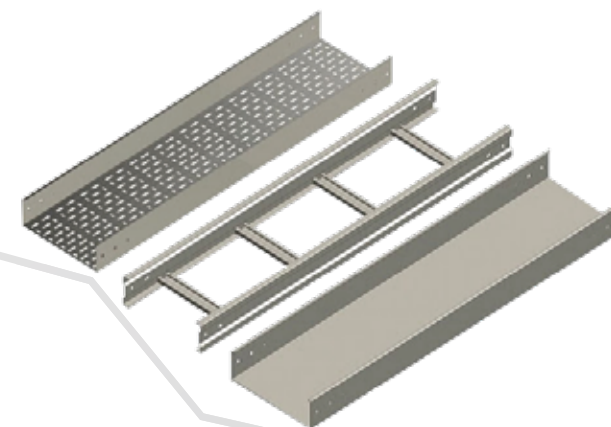

The ON Energy industrial manufacturing plant is located at Tam Phước Industrial Park, Dong Nai City, Vietnam.

Workers are manufacturing and assembling products at the factory.

Products

Technical walkways and Cable trays and ladders, electrical cabinets

ON Energy owns a mechanical equipment factory in Dong Nai specializing in manufacturing and supplying accessories of solar power system such as cable trays and ladders, electrical cabinets, safety barriers and technical walkways, and accessory equipment:

Mounting systems and accessory equipment:

ON Energy supplies mounting systems and accessories to fix solar panels to roofs.

Community Responsibility

KTG FOUNDATION

With the mission of **“Lighting Up Hope”** KTG Foundation and ON Energy aspire to improve the quality of life for communities and society through sustainable solutions that deliver real value.

We believe that every individual, every family, and every community has the potential to grow and prosper.

Creating Green Values – Empowering Communities Together

Wherever ON Energy solar power projects are implemented, we are committed to dedicating a portion of our resources to charitable and community activities.

This reflects our mission of aligning business growth with social responsibility and community contribution, helping to inspire hope and deliver meaningful, lasting values.
